Our Cumulative Trade Balance is minus \$7.53 trillion! It's the greatest exportation of wealth and jobs the world has ever seen. The downward slide seems to have started right after *Roe vs. Wade*. Could this be more than just coincidence? It's a crazy question, but could the two possibly be related?

Our national debt is unprecedented; we can no longer afford our lifestyles. We're embroiled in a war against terror, and natural disasters are taking ever greater tolls. We no longer feel we can trust anyone, especially our political and business leaders.

Is it possible *God* has stopped *Blessing America*, since our acceptance of legalized abortion, despite the popularity of the Irving Berlin song?

With tact and style Professional Management Consultant, Ron Bourque, postulates some of the reasons for America's corporate decline. In his book, *Disturbing Questions — Has God Stopped Blessing America*, Ron demonstrates correlations between the economic status of America and the social changes of the last century. You will be mesmerized, as you muse the details and you just may be motivated to promote social changes of your own.
