PARENTS' RIGHTS PETITION

As concerned parents, responsible adults, and involved citizens, we write to affirm the primary role parents perform in the raising and rearing of their child(ren). We firmly believe in the right of parents to direct the health and well-being of their children as a fundamental right which may not be abridged by the United States or any State. Therefore, we strongly oppose the enactment of any legislative measure or executive order that would have the effect of undermining parental involvement in the every day decisions of a child's life.
