

### 40th anniversary of the Roe v. Wade Petition

Whereas the Supreme court decision Roe v. Wade has: Allowed the killing of roughly 3,000 babies in NH every year; Turned doctors into baby killers; Destroyed the inalienable right to life; Caused enormous suffering for millions of women; Denied father’s their natural parental rights; and generally lead to huge increases in domestic violence, we, the undersigned, urge our legislators to oppose any/all efforts to celebrate Roe v. Wade.
